WHO **WE ARE**

Founded in 2015 and headquartered in Singapore, Tradesocio is a globally recognised FinTech company. We provide tailored solutions that refine the way investments are offered, managed and accessed.

HOW IT ALL **BEGAN**

When our journey began in 2015, our focus was to improve the way Fund Management and Segregated Managed Account services were offered to investors. Having accumulated vast experience over the years, our global team pinpointed areas where such services could greatly benefit from the introduction of our tailored technological solutions.

Our innovative technology has now helped over 30 companies around the world to improve their operations, cut costs and become more profitable.

WHAT'S NEXT

As Tradesocio's technology is integrated into more financial institutions, the company will continue to grow its global operations. Throughout 2019 Tradesocio is planning to expand its global presence by opening offices in London and Dubai, building on top of existing hubs of Singapore, Mumbai, New Delhi, Chennai and Cyprus. As a FinTech company, we are also excited about the major product releases planned all the way through 2019.
